## POWERLITE SUNPOWER SOLAR CHARGER

The MOAB POWERLITE SunPower Solar Charger is a high-efficiency, light-weight, low-profile, USB solar panel designed to charge small mobile/portable USB devices.

The Solar Charger is a versatile, dependable and rugged solution for many charging applications in emergencies. It is the ideal solution when there is a lack of grid power.

The glass-less panel is constructed of high-efficiency SunPower monocrystalline solar cells, encapsulated in ETFE, coupled with a smart USB adapter
