

POWERLITE LED LAMP + USB CHARGER

The MOAB POWERLITE LED Lamp + USB Charger is a portable, AC/DC/Solar rechargeable light *plus* USB charger, designed to meet the needs of everyday, or emergency/backup lighting for households, off-grid structures and recreational activities.

The LED Lamp + USB Charger is a versatile and dependable solution for many applications, replacing unsafe candles, kerosene/oil/propane lamps and supplementing flashlights during power outages. The LED Lamp + USB Charger is also an ideal solution for lighting indoor and outdoor structures like cabins, sheds, garages, barns, stables, patios, decks, etc., as well as for outdoor recreational activities like camping, boating, fishing, hunting and barbecues.

The LED Lamp + USB Charger consists of an LED light with an integrated USB output port for charging USB devices. In storage, a fully charged unit can hold a charge for over a year. Included is a USB cable.
